Student's Comments

Student 1: The best thing about coming to Australian Christian College would have to be that it's so Christ-centered.

Student 2: All the teachers are really nice and approachable. You can always talk to them out of class.

Student 3: Every teacher helps you individually.

Student 4: When I first came to school it was really welcoming.

Student 5: I'm learning more than I did before.

Student 6: I appreciate it because no one really gets bullied here.

Student 1: The subjects I'm doing? Science.

Student 5: Maths, English.

Student 4: Creative and Practical Arts.

Student 5: Drama, Music, Sports.

Student 1: History.

Student 2: My math teacher, I was struggling with something and I mentioned it to him and straight away he was eager to set up an extra class in the lunch or recess or something like that where it's just me and him and he can go through it and really help me through it and that was very helpful.

Student 1: The teachers of this school are really approachable. For example, there's an instant when I went to a teacher just to talk and I found it really helpful because she came to a very personal level with me and she inspired me and supported me in what I was saying and so it's not only helped me to participate here as a student but it's also helped me to be a light here.

Student 6: One time at the school I was sick in the office and Ms. Kwok, the principal came around and I wasn't quite sure what she was going to do, but she started praying for me and I felt really nice because at my old school they didn't really do that for anyone.

Student 4: The best thing about going to Australian Christian College is that I get to be closer to God and there's nicer people.

Student 2: This school is great because, I say mainly the really Christian environment, it's very centered on God and Christ which is really good; it's very important to have that.

Student 3: One of the strengths of this school is there's no bullying. If there's any sign of bullying or close to bullying they'll get in a lot of trouble and they'll try to make it stop. In other schools they might just brush it off and be like, "Well, you need to put up with it."
Student 1: I like using CEM online because everything's there and all your lessons are there, the students are on there, and you're posting things, you're seeing what other people are doing. The teachers are posting the lessons and sort of like a Facebook but for school.

Student 5: When I finish school I want to be a doctor and go to university. I'd like to be a doctor because you help people and you help them with your needs and the school is really good with that because they help you when you have a problem.

Student 1: When I leave school I want to be a personal trainer but also I feel called to do long-term missions so I'd probably go to Bible College and that's one of the reasons I really want to do well here at Australian Christian College.
